Meeting January 9th - 7:30 P.M.

Yuba County Library

303 Second Street, Marysville

Truman Holtzclaw presents our January Workshop

“What Does It Mean to Trumanize an Image”

No-Host Dinner - 6:00 at Wonderful Restaurant

724 J Street, Marysville

Message from the Chair

Wishing for you all things grand in the New Year, 2008.

Our holiday social, December 12, 2007, was an enjoyable way to end the year. Members brought holiday decorations to make the room festive and the holiday treats were enjoyed by everyone. Several members brought vignettes for the program and Greg Chance projected the submissions. I'd like to thank the members who took time to prepare vignettes for our enjoyment.

For our January 9, 2008 meeting, Truman Holtzclaw will present a workshop at our meeting. To preview his work go to his website - <http://www.abiphotos.com/>.

The following week **January 16, 2008, 7:00 to 9:00**, all members are invited to bring any of their work to share without critique. **This is the first time the club has scheduled a non-critique evening.** So it's a nice opportunity to share and enjoy. Members can bring digital images, prints, or framed work they have done, to share. Digital images can be submitted to submissions@hubcameraclub.com by January 9th or brought in on a CD or Flash Drive. Remember to name your digital photos in the order you want them projected (**on both emailed submissions or CD**) by renaming each photo sequentially in the order you want them to appear. For example: rename them 100 Buttes, 101 Buttes, 102 Buttes, etc. You also need to re-size to width 1024 and height to 768. You can do this with Photoshop / Elements at:

File (drop down menu)

Choose: **Process Multiple Files**

You can **Rename Files** and **Resize Images** at this location.

Don't hesitate to call me for clarification, if my instructions are confusing you, 743-8026.

Please let me know by January 9 how you plan to participate. If you are bringing digital images, we'd like to be able to schedule the time. If you are bringing prints, we'll bring the print box to display the prints.

See you on January 9th at the Wonderful Restaurant at 6:00 and the Yuba Co. Library at 7:30.

January's Program will Feature Truman Holtzclaw

Truman's description of his program: "Let's make some dazzling images from our regular images. Here's a chance to open some new doorways and go down some paths that have not been traveled before. Filters and slider controls in Photoshop and Photoshop Elements have given the photographer a whole new arena in which he or she can be creative. But be warned, because there is a good chance that some of your new creative work will be spurned and/or criticized. Come and learned some of the tricks of the trade. Learn how to make abstracts and "Trumanize" your images. It is relatively easy, very rewarding and lots of fun. There will be some helpful pass outs. See you at the meeting." Go to his website <http://www.abiphoto.com/> to view some of his awesome work.

Mark Your Calendar

February's Hub Camera Club
meeting will be an evaluation
on the 13th.

The assigned subject is 'Cemeteries'.

Editor's Notes:

I am sorry to announce that Eric Li is no longer working in Marysville and is now with his family full time instead of commuting to the San Francisco area on weekends. He and his creative images will be missed. We have several new members that include Herschel Todd, John Taylor and Frank Sorgea. Welcome!

Hub Camera Club Treasurer's Report

December 1, 2007 – January 1, 2008

Balance December 1, 2007	\$2200.72
Income	
Dues	10.00

Announcement

Monica Green found an Ed Pierce Workshop, Captivated By The Light, in Sacramento to be held on February 26, 2008, 7:30 P.M. Contact

www.edpierceseminars.com

for more information. The workshop is advertised at \$49.00, Monica has a promotion code that reduces the price to \$19.00. You can contact Monica Green or Greg Chance for the Code. Let Greg know if you plan to go, so we can work out a car pool.

Madison Liked the Tissue Paper!

Madison Montgomery's grandmother has finally started taking pictures again. All she needed was a willing model and a new digital camera.

Formatting & Uploading Digital Images for Critique

by Ed Valusek & Greg Chance

These instructions do not address the specifics of each image manipulation program (e.g. Photoshop, Elements, Photo Delux, and others) but are detailed enough to allow you to submit a properly formatted image. Once you have finished working your image and you are ready to submit it, you must format it for submittal. Hopefully, you have worked your image in RGB Color Mode. This is the preferred Color Mode for all image submittals except B & W, which can be in Monochrome. If your image is not in RGB Color Mode, change it to RGB Color Mode now. The next step is to size it.

Sizing: A little bit about the projector. The maximum width it can display is 1024 pixels. The maximum height is 768. What this means is your image can never be over 1024 pixels wide or over 768 pixels high. When resizing your image to fit, resize whatever is the longer dimension to fit the maximum number in that dimension. Select the option to “constrain proportions”. This will keep the aspect ratio the same for both height and width. For example, an image that’s 2000 pixels wide and 1000 pixels high is wider than it is high. Therefore, size the width to 1024. Your software will resize the height accordingly. An image that’s 2000 pixels high and 1000 pixels wide be fine for width (under 1024 pixels) but it’s too high. Resize the height to 768. The width will automatically be resized as well.

Files: Use the title of the image as the filename. For example, if you’re submitting a B&W image titled, “Shoe”, the filename should be Shoe.jpg. When your software asks what sort of compression you want, set it to medium. In Photoshop, a compression level anywhere from 5 to 8 is acceptable.

Submission This year, the procedure for submitting digital images has been drastically changed. Hopefully, it will be for the better. Attach the formatted image (see facing page) to an email, and send to submissions@hubcameraclub.com **5 days before evaluation**. In the text of the email include any pertinent details about the image such as:

Title, Category, Photographer Notes, etc.

This will eliminate confusion on the part of the person who puts together the slide show for the meeting.
